Foreign Two Cents

POST CARD

This side for address

This is the nearest down place to where we are living we have to go here for a Chemist or anything like that it costs 2½ on the street car, The cars run like trains here you can go more than a 4/- ride on the street car they just change from one to the other & town's 60 miles distant you can go on the cars I thought it very funny at first but you get used to it very soon.
